

**Pholio**  
MARIAGES

## BIENVENUE

---

First of all many thanks for taking an interest in my work. This could be the start of a beautiful friendship!

The purpose of photography is to act as an aide-mémoire. It helps preserve memories of laughters and those tears of joy from a day that must not fade away.

Each wedding is unique and what makes it so is your vision and your desire to live a moment intense and unforgettable. My job is to appreciate the fabric of your couple so as to best record a mood and a personality that are unmistakably yours.

In a style coined as classic and yet slightly quirky I faithfully capture the key moments. Discreet when necessary and playful in the appropriate times, I never impose myself, I simply adapt to give you centre stage.

A discount of 15% applies for the purchase of additional albums

## FAQ

About Photomatic booths...

We've struck a deal with Photomatic with a 5% discount. Check their incredible photoboosts on their website and simply mention Pholio to get your special discount!

How long do photo sessions last?

Sessions last 2 hours for 80 images delivered. They take place wherever you want on a different day to your wedding. Some couples use them to cover a get together before the wedding day or a brunch the day after.

How do you proceed with albums?

As a first step, I'll ask you to select 80 images (Couple's album) or 40 images (Mamas & Papas album). I will then send you a layout through an online software that'll allow you to leave comments for potential modifications. Once you're 100% happy I put the order through :)

Do you cover weddings outside Perpignan?

Absolutely! I've been to Australia, South Africa, Morocco and Northampton... so yeah, anything is possible. Ask me for a quote.

What's your delivery time?

Generally speaking I can deliver a wedding within 6 to 8 weeks. It gets a bit slower in August (peak period for weddings in France). You first get the slideshow as a teaser followed by the online gallery 48 hours later.

What else do you need to do?

Let's meet up either face to face or by Zoom, then [click here to access the online contract](#) where you'll find all necessary details to pay the deposit and legal stuff.

## A MON PROPOS

---

With origins from around the globe, I naturally draw inspiration from all cultures. But in my insatiable curiosity I decided that England would be the hub of my imagination.

During my 15-year stay, of which I spent 10 years teaching photography, I would passionately talk about the great photographers who influenced the destiny of this marvellous black box. Now it is my job to put in image your story.

To share every instant of your wedding and apply my artistic eye to it is an immense privilege. The moment is brief, make the most of it, I take care of the memories.

I've photographed weddings in France of course but also in the UK, Spain, Australia, South Africa and Morocco. I'll follow you wherever you want to go!
